

Dear Colleagues,

I wish you and your families **A VERY HAPPY, HEALTHY AND PROSPEROUS YEAR 2018 !**

The beginning of the NEW YEAR is a good occasion to connect again. My heartiest congratulation to all, for the impressive results in Year 2017.

Friends', beginning of the New Year, is the time to cherish the accomplishments made last year and start making plans for the future. I as CEO APCPL, take this as an opportunity to extend my heartfelt greeting for the season and appreciate you all for your achievements during the last year, which was a great year in achieving our targets on all fronts.

This day gives us an occasion and opportunity to pause and take stock, to look back, to rededicate ourselves to our mission and to renew our resolve to take forward our great organization to still greater heights. We have ended the Year 2017 with many proud accomplishments and various CSR events. These accomplishments have been possible only with your dedication, positive attitude, hard work and the never ending support of your families. In the New Year too, I expect you all to stay focused and keep the momentum going-on with renewed rejuvenation.

In this age of rapid change, we need to face prevailing challenges and stay agile for the future. Achieving power generation with acceptable environment norms is our top most priority. Let us therefore rededicate ourselves on this First day of the New Year to the service of Nation.

Let safe working be our first Resolution for the New Year 2018 and beyond.

Me and my family convey our best wishes to you and your family members and wish all success in your future endeavors. Let this **New Year** be more fruitful, filled with happiness and good health for you all.

Let's together have a Happy, Healthy and Successful year 2018 ahead.

With Best Wishes !

(Narendra Narayan Mishra)
